About me

I am a second-year student at the French university of Annecy where I learn computer science. During the years, I became passionate of machine learning, AI but also data science.

I want to become a searcher in computer science, since I love to learn new things every day and understand how everything works. I am also interested in being a teacher for the future developers.

Work experiences

CAES – LAPP (Laboratory) — 2019

France, Annecy

Missions: Making a website and an application for their climbing activity. PHP, Laravel

Education

DUT Informatique (2-year diploma in computer science) — 2019

University of Savoy / IUT Annecy

Annecy-le-Vieux, France

French Baccalaureate SSI (High School diploma specialized in science and computer engineering) — 2019

Louis Lachenal High School

Argonay, France

Interests

Reading
I like to read novels and comic-strips. I especially love 1984 (George Orwell) and Empire of the Ants (Bernard Werber).

Playing
I like to play all sorts of video-games, no matter the genre, from the 80's to the ones that we have today.

Music
I like nearly all the genre, but my favourites are jazz, classical and metal. Nina Simone is my favourite of all.
